Pricing & Promotions | Digital Shelf | Platform⁺

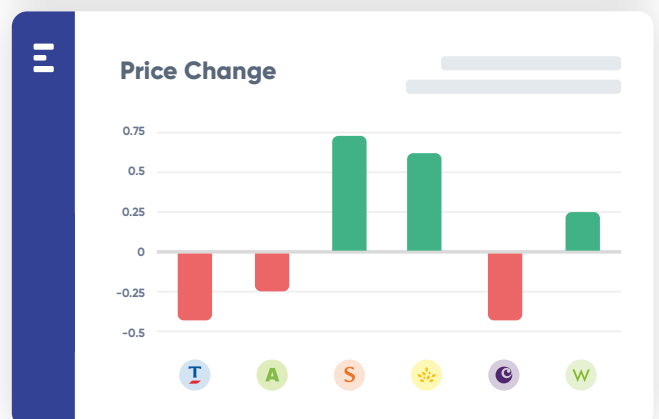

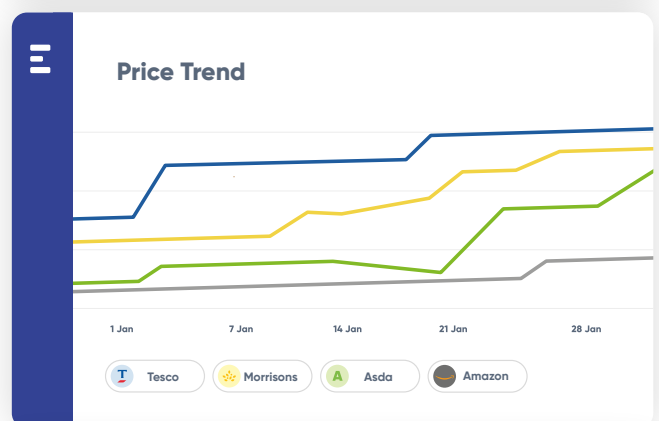

Brand Nudge instantly arms you with the data and insight you need to establish your value position and maximise sales and margin according to your business priorities.

PRICING

Brand Nudge captures daily pricing for every SKU in your category, across all your chosen retailers. The Brand Nudge platform provides you with insights on:

PRICE TRENDS

- Monitor pricing trends over time and dig into price changes across chosen time periods
- Identify the price movers and followers across your chosen retailers
- View pricing at base, shelf, or promotional level

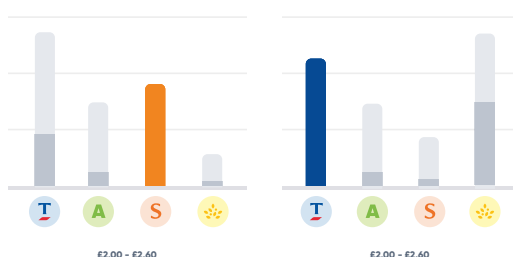

Average Pricing

AVERAGE PRICING

- Check the average price of a basket of products across each retailer
- Review SKU level pricing in each retailer, to identify if movements are genuine base price changes or promotionally driven

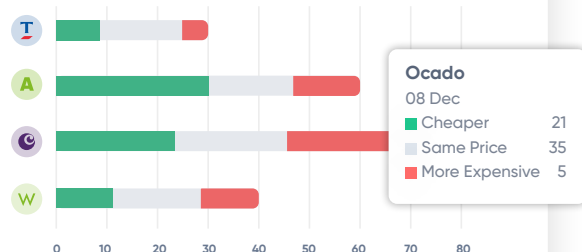

Price Range

PRICE RANGE

- Compare retailer ranges to understand SKU count within different price buckets and where there may be product gaps, to identify opportunities for NPD or range extensions

Price Comparison

PRICE COMPARISON

- Compare retailers to understand how many products are more or less expensive in each

PRICING EXPORT & ALERTS

If charts aren't your thing, you can set up exports to receive pricing data in your inbox at whatever frequency you choose – or regular alerts to keep you updated, allowing you to react immediately:
